THE BRITISH JOURNAL OF NON-DESTRUCTIVE TESTING

VOLUME 30 1988 - INDEXES

The British Journal of Non-Destructive Testing is published by
The British Institute of Non-Destructive Testing, 1 Spencer Parade, Northampton NN1 5AA, England
Telephone: Northampton (0604) 30124 (answering service) *Telex:* 31612 OTSSG, *Fax:* (0604) 231489

KEY TO ISSUES

Number 1 January	**1-68**
Number 2 March	**69-152**
Number 3 May	**153-240**
Number 4 July	**241-316**
Number 5 September	**317-380**
Number 6 November	**381-448**

REGULAR FEATURES AND SHORT TITLES

Annual Report 229

Book Reviews:
- Pressure Vessel Codes and Standards. R.W. Nichols 47
- Non-Destructive Testing. R. Halmshaw 47
- Low Cycle Fatigue and Elastoplastic Behaviour in Metals. K.T. Rie 119
- Report on Non-ionising Radiation. D.H.S.S 119
- Understanding Nuclear Power. H.A. Cole 203
- Effective NDE for Structural Integrity. R.W. Nichols 203
- Non-Destructive Testing for Engineering Design. D. Birchon 204
- Composites Evaluation (2nd Intern. Conf.). J. Herriot 204
- Techniques for Multiaxial Creep Testing. D.J. Gooch and I.M. How 204
- Current Research on Fatigue Cracks. T. Tanaka, M. Yono, K. Kommi 205
- Statistical Research on Fatigue and Fracture; Current Japanese Materials Research. Vol. 2. T. Tanaka, S. Nishijima, M. Ichikawa 289
- Tomorrow's Materials. K. Easterling 290
- Non-Destructive Testing Handbook. Vol. 4. Electromagnetic Testing 290
- Ultrasonic Studies of Bone. Inst. of Physics 290
- Non-Destructive Testing Handbook. Vol. 5. Acoustic Emission Testing 291
- Applications of Thermal Imaging. S.G. Burnay, T.L. Williams, C.H. Jones 292
- Elastic Waves in Solids: with Applications to Non-Destructive Testing of Pipelines. A.H. Harker 351
- Ultrasonic Inspection of Heavy Section Steel: PISC-II Final Report. R.W. Nichols, S. Crutzen 420
- 10th Advances in Reliability Technology. G.P. Libberton 420

AUTHOR INDEX

Anthony G.
The Engineering Council in the Regions 445

Asher J. (with Schwabe P.H.)
The use of thin layer activation in condition monitoring 259

Astridge D.G.
HUM — Health and usage monitoring of helicopter blades mechanical systems 403

Atherton D.L. (with Sullivan S. and Daly M.)
A remote-field eddy current tool for inspecting nuclear reactor pressure tubes 22

Atherton D.L.
Finite element calculations and computer measurements of magnetic flux leak patterns for pits 159

Beech H.G.
Technical note — segregation of twist drill blanks 274

Beech H.G.
Technical note — inks for magnetic particle crack detection 341

Bin Saffiey H.J. (with Bridge B.)
Monitoring of the annealing temperature and hardness of aluminium alloys by ultrasonic back-scatter and critical angle reflectivity 392

Bridge B. (with Bin Saffiey H.J.)
Monitoring of the annealing temperature and hardness of aluminium alloys by ultrasonic back-scatter and critical angle reflectivity 392

Carter P. (with Milne J.M.)
A transient thermal method of measuring the depths of sub-surface flaws in metals 333

Casey N.F. (with Holford K.M. and Taylor J.L.)
Wire break detection during the tensile fatigue testing of 40 mm diameter wire rope 338

Chandrasekharan K.N. (with Panakkal J.P., Patil B.P. and Ghosh J.K.)
Quantitative assessment of beam effect in radiography of nuclear fuel plates and its removal by digital image processing 170

Clough P. (with Rogerson A., Poulter L.N.J., Cooper A.G.)
RNL automated ultrasonic inspection of the PISC-II PWR inlet nozzle (Plate 3) 86

Cooper A.G. (with Rogerson A., Poulter L.N.J., Clough P.)
RNL automated ultrasonic inspection of the PISC-II PWR inlet nozzle (Plate 3) 86

Cooper M.J. (with Holt R.S.)
Non-destructive examination with a Compton scanner 75

Daly M. (with Atherton D.L., Sullivan S.)
A remote-field eddy current tool for inspecting nuclear reactor pressure tubes 22

Ghosh J.K. (with Chandrasekharan K.N., Panakkal J.P., and Patil B.P.)
Quantitative assessment of beam effect in radiography of nuclear fuel plates and its removal by digital image processing 170

Halmshaw R.
Controversy — X-ray exposure meters 18
Controversy — magnified radiographic images 106
Controversy — intensifying screens for use with cobalt-60 gamma-rays 199

An assessment of the present status of X-ray television-fluoroscopy — real-time radiograhic methods 257
A history of industrial radiography in the UK 325

Heidt H. (with Stade J. and Khan A.A.)
Investigation on inherent unsharpness of different screen materials for 8 MV X-rays and Co-60 gamma-rays 28

Hemsworth B.
Inspection trials — a regulatory view 173

Highmore P.J. (with Rogerson A., Poulter L.N.J.)
The ultrasonic inspection of PISC-II Plate 2 by the Risley Nuclear Laboratories 9

Highmore P.J. (with Short K.A.)
A beginner's guide to — signal processing 35

Holford K.M. (with Casey N.F. and Taylor J.L.)
Wire break detection during the tensile fatigue testing of 40 mm diameter wire rope 338

Holt R.S. (with Cooper M.J.)
Non-destructive examination with a Compton scanner 75

International Institute of Welding
X-ray real-time imaging (radioscopy) for weld inspection: IIW 4th Progress Report 400

Ivkovic I.Z. (with Knezevic D. and Martinovic K.)
Insulation microbreak detection by acoustic emission measurements 81

Jerrison P.R. (with Way T.)
Automation of viscosity measurement in lubricating oils from Diesel engines 99

Katsoulakos P.S. (with Newland J., Stansfield J.T., Ruxton T.)
Monitoring, databases and expert systems in the development of engine fault diagnostics 263

Khan A.A. (with Stade J., Heidt H.)
Investigation on inherent unsharpness of different screen materials for 8 MV X-rays and Co-60 gamma-rays 28

Knezevic D. (with Ivkovic I.Z., Martinovic K.)
Insulation microbreak detection by acoustic emission measurements 81

Martinovic K. (with Ivkovic I.Z., Knezevic D.)
Insulation microbreak detection by acoustic emission measurements 81

McNab A.
A review of eddy current system technology 249

Metcalfe G.R.
The use of eddy current flaw detectors with meter display for measuring the conductivity of aluminium alloy structures 164

Milne J.M. (with Carter P.)
A transient thermal method of measuring the depths of sub-surface flaws in metals 333

Neale M.J
Trends in maintenance and condition monitoring 31

Newland J. (with Katsoulakos P.S., Stansfield J.T. and Ruxton T.)
Monitoring, databases and expert systems in the development of engine fault diagnostics 263

Outhwaite D.
The effect of the 1985 Ionising Radiations Regulations on a Service Inspection Company 103

Panakkal J.P. (with Chandrasekharan K.N., Patil B.P., Ghosh J.K.)
Quantitative assessment of beam effect in radiography of nuclear fuel plates and its removal by digital image processing 170

Patil B.P. — (as above) 170

Paton A.J.
Product liability 191

Pigott G.
Technical note — computerised defect plotting from ultrasonic flaw detection equipment 410

Poulter L.N.J. (with Highmore P.J., Rogerson A.)
The ultrasonic inspection of PISC-II Plate 2 by the Risley Nuclear Laboratories 9

Poulter L.N.J. (with Rogerson A., Clough P., Cooper A.G.)
RNL automated ultrasonic inspection of the PISC-II PWR inlet nozzle (Plate 3) 86

Ratcliffe B.J.
Development of a non-reactor neutron radiographic assembly using a 12 MeV linear electron accelerator 94

Ratcliffe B.J.
Investigation into the use of track-etch imaging to produce neutron radiographs from a non-reactor neutron source 183

Redmayne I.G.B.
Problem solved — concrete radiography 415

Rogerson A. (with Highmore P.J., Poulter L.N.J.)
The ultrasonic inspection of PISC-II Plate 2 by the Risley Nuclear Laboratories 9

Rogerson A. (with Poulter L.N.J., Clough P., Cooper A.G.)
RNL automated ultrasonic inspection of the PISC-II PWR inlet nozzle (Plate 3) 86

Ruxton T. (with Katsoulakos P.S., Newland J., Stansfield J.T.)
Monitoring, databases and expert systems in the development of engine fault diagnostics 263

Saeki Y. (with Sofue T., Watanabe T.)
The spotty mottling appearing on radiographs of austenitic stainless steel weldments 19

Sanford-Francis C.H.A.
Safe service life availability from measurements of magnetic material change in metals 342

Schwabe P.H. (with Asher J.)
The use of thin layer activation in condition monitoring 259

Short K.A. (with Highmore P.J.)
A beginner's guide to — signal processing 35

Sofue T. (with Saeki Y., Watanabe T.)
The spotty mottling appearing on radiographs of austenitic stainless steel weldments 19

Stade J. (with Khan A. A., Heidt H.)
Investigation on inherent unsharpness of different screen materials for 8 MV X-rays and Co-60 gamma-rays 28

Stansfield J. T. (with Katsoulakos P.S., Newland J., Ruxton T.)
Monitoring, databases and expert systems in the development of engine fault diagnostics 263

Sullivan S. (with Atherton D.L., Daly, M.)
A remote-field eddy current tool for inspecting nuclear reactor pressure tubes 22

Taylor J.L. (with Casey N.F., Holford K.M.)
Wire break detection during tensile fatigue testing of 40 mm diameter wire rope 338

Watanabe T. (with Saeki Y., Sofue T.)
The spotty mottling appearing on radiographs of austenitic stainless steel weldments 19

Way T. (with Jerrison P.R.)
Automation of viscosity measurement on lubricating oils from Diesel engines 99

SUBJECT INDEX

ACOUSTIC EMISSION
Insulation microbreak detection by acoustic emission measurements.
I.Z. Ivkovic, D. Knezevic, K. Martinovic 81
Wire break detection during tensile fatigue testing of 40 mm diameter wire rope.
N. F. Casey, K.M. Holford, J.L. Taylor 338

AEROSPACE
HUM — health and usage monitoring of helicopter mechanical systems.
D.G. Astridge 403

AUSTENITIC STEEL
The spotty mottling appearing on radiographs of austenitic stainless steel weldments.
Y. Saeki, T. Sofue, T. Watanabe 19
Practical pointers for practitioners 422

AUTOMATION
Automation of viscosity measurement in lubricating oils from Diesel engines.
P.R. Jerrison, T. Way 99

BEGINNER'S GUIDE
A beginner's guide to — signal processing.
P.J. Highmore, K.A. Short 35

COMPTON SCATTER METHODS
Non-destructive examination with a Compton scanner.
R.S. Holt, M.J. Cooper 75

CONCRETE
Problem solved — concrete radiography.
I.G.B. Redmayne 415

CONDITION MONITORING
Trends in maintenance and condition monitoring.
M.J. Neale 31
The use of thin layer activation in condition monitoring.
P.H. Schwabe, J. Asher 259
Monitoring, databases and expert systems in the development of engine fault diagnostics.
P.S. Katsoulakos, J. Newland, J.T. Stansfield, T. Ruxton 263
HUM — health and usage monitoring of helicopter mechanical systems.
D.G. Astridge 403

CONDUCTIVITY MEASUREMENT
The use of eddy current flaw detectors with meter display for measuring the conductivity of aluminium alloy structures.
G.R. Metcalfe 164

CONTROVERSY
X-ray exposure meters.
R. Halmshaw 18
Magnified radiographic images.
R. Halmshaw 106
Intensifying screens for use with cobalt-60 gamma-rays.
R. Halmshaw 199

EDDY CURRENT TESTING
A remote-field eddy current tool for inspecting nuclear reactor pressure tubes.
D.L. Atherton, S. Sullivan, M. Daly 22
The use of eddy current flaw detectors with meter display for measuring the conductivity of aluminium alloy structures.
G.R. Metcalfe 164
A review of eddy current system technology
A. Mcnab 249
Technical note — segregation of twist drill blanks.
H. G. Beech 274

ENGINEERING COUNCIL
The Engineering Council in the Regions.
G. Anthony 445

FOSSILS
Radiography of fossils from the Messel Oil Shales Mine, Hesse (FGR) 389

HUM
HUM — health and usage monitoring of helicopter mechanical systems.
D.G. Astridge 403

INSULATION TESTING
Insulation microbreak detection by acoustic emission measurements.
I.Z.Ivkovic, D. Knezevic, K. Martinovic 81

IONISING RADIATIONS REGULATIONS
The effect of the 1985 Ionising Radiations Regulations on a Service Inspection Company.
D. Outhwaite 103

MAGNETIC TESTING METHODS
Finite element calculations and computer measurements of magnetic flux leakage patterns for pits.
D.L. Atherton 159
Technical note — inks for magnetic particle crack detection.
H.G.Beech 341
Safe service life availability from measurements of magnetic material change in metals.
C.H.A. Sanford-Francis 342

MATERIAL PROPERTIES
Monitoring of the annealing temperature and hardness of aluminium alloys by ultrasonic back-scatter and critical angle reflectivity.
B. Bridge, H.J. Bin Saffiey 392

NEUTRON RADIOGRAPHY
International neutron radiography Newsletter No. 15 — NRWG test program, Part 1 40
Development of a non-reactor neutron radiographic assembly using a 12 MeV linear electron accelerator.
B.J. Ratcliffe 94
Investigation into the use of track-etch imaging to produce neutron radiographs from a non-reactor neutron source.
B.J. Ratcliffe 183

PISC-II
The ultrasonic inspection of PISC-II Plate 2 by the Risley Nuclear Laboratories.
P.J. Highmore, A. Rogerson, L.N.J. Poulter 9
RNL automated ultrasonic inspection of the PISC-II PWR inlet nozzle (Plate 3).
A. Rogerson, L.N.J. Poulter, P.Clough, A.G. Cooper 86
Inspection trials — regulatory view.
B. Hemsworth 173

PRODUCT LIABILITY
Product liability.
A.J. Paton 191

RADIOGRAPHY
Controversy — X-ray exposure meters.
R. Halmshaw 18
The spotty mottling appearing on radiographs of austenitic stainless steel weldments.
Y. Saeki, T. Sofue, T. Watanabe 19
Investigation on inherent unsharpness of different screen materials for 8 MV X-rays and Co-60 gamma-rays.
J. Stade, A.A. Khan, H. Heidt 28
Development of a non-reactor neutron radiographic assembly using a 12 MeV linear electron accelerator.
B.J. Ratcliffe 94
Controversy — magnified radiographic images.
R. Halmshaw 106
Quantitative assessment of beam effect in radiography of nuclear fuel plates and its removal by digital image processing.
K.N. Chandrasekharan, J.P. Panakkal, B.P. Patil, J.K. Ghosh 170
Investigation into the use of track-etch imaging to produce neutron radiographs from a non-reactor neutron source.
B.J. Ratcliffe 183
Assessment of the present status of X-ray television-fluoroscopy — real-time radiography methods.
R. Halmshaw 257
A history of industrial radiography in the UK.
R. Halmshaw 325
Radiography of fossils from the Messel Oil Shales Mine, Hesse, (FGR) 389
X-ray real-time imaging (radioscopy) for weld inspection: IIW 4th Progress Report 400
Problem solved — concrete radiography.
I.G.B. Redmayne 415

REAL-TIME RADIOGRAPHY
Assessment of the present status of X-ray television-fluoroscopy — real-time radiography methods.
R. Halmshaw 257
X-ray real-time imaging (radioscopy) for weld inspection: IIW 4th Progress Report 400

SAFE-LIFE ASSESSMENT
Safe service life availability from measurements of magnetic material change in metals.
C.H.A. Sanford-Francis 342

SIGNAL PROCESSING
A beginner's guide to — signal processing.
P.J. Highmore, K.A. Short 35
Quantitative assessment of beam effect in radiography of nuclear fuel plates and its removal by digital image processing.
K.N. Chandrasekharan, J.P. Panakkal, B.P. Patil, J.K. Ghosh 170

THERMAL METHODS
A transient thermal method of measuring the depths of sub-surface flaws in metals.
J.M. Milne, P. Carter 333

TUBE INSPECTION
A remote-field eddy current tool for inspecting nuclear reactor pressure tubes.
D.L. Atherton, S. Sullivan, M. Daly 22

ULTRASONIC TESTING
The ultrasonic inspection of PISC-II Plate 2 by the Risley Nuclear Laboratories
P. J. Highmore, A. Rogerson, L.N.J. Poulter 9
RNL automated ultrasonic inspection of the PISC-II PWR inlet nozzle (Plate 3).
A. Rogerson, L.N.J. Poulter, P. Clough, A.G. Cooper 86
Inspection trials — a regulatory view.
B. Hemsworth 173
Monitoring of the annealing temperature and hardness of aluminium alloys by ultrasonic back-scatter and critical angle reflectivity.
B. Bridge, H.J. Bin Saffiey 392
Technical note — computerised defect plotting from ultrasonic flaw detection equipment.
G. Pigott 410
Practical points for practitioners.
H.G. Beech 422

VISCOSITY MEASUREMENTS
Automation of viscosity measurement in lubricating oils from Diesel engines.
P.R. Jerrison, T. Way 99

WELD INSPECTION
The spotty mottling appearing on radiographs of austenitic stainless steel weldments.
Y. Saeki, T. Sofue, T. Watanabe 19
X-ray real-time imaging (radioscopy) for weld inspection: IIW 4th Progress Report 400

WIRE ROPE TESTING
Wire break detection during the tensile fatigue testing of 40 mm diameter wire rope.
N.F. Casey, K.M. Holford, J.L. Taylor 338

X-RAYS
Non-destructive examination with a Compton scanner.
R.S. Holt, M.J. Cooper 75
The effect of the 1985 Ionising Radiations Regulations on a Service Inspection Company.
D. Outhwaite 103
